## ROLL GATES

### THE TRADITIONAL ENTRY GATE SOLUTION

The PassPort roll gate system has been redesigned to fit a wide variety of heights and openings. The PassPort v-track design provides the least amount of space required for a slide gate and the greatest installation flexibility.

#### ROBUST

PassPort II is an innovative roll gate system with a robust fabricated design. The PassPort roll gates have a rigid framework that enables the gate system to glide effortlessly across its on-grade track.

#### VERSATILE

All PassPort gates are designed with versatility in mind. The reversible design of the PassPort roll gate insures a flawless installation by allowing the gate to be installed on either side of the gate opening.

#### DURABLE

PassPort's fully welded construction and PermaCoat finish give this V-track roll gate the durability and strength required for limitless gate cycles.

We take great pride in manufacturing "Made in the USA" products. Ameristar is

located in Tulsa, Oklahoma and is American owned and operated.

#### Applications:

- Water Treatment & Storage
- Municipal Facilities
- Government Facilities
- Airports
- Manufacturing Plants
- Petroleum & Chemical Facilities
- Power Plants & Substations
- Schools & Universities
- Stadiums & Event Centers
