

## **STALWART® SECURITY BARRIER 15 YEAR LIMITED WARRANTY**

The Stalwart® Steel Security Barrier System by AMERISTAR® is manufactured from the highest quality materials by skilled craftsmen to meet the highest standards of workmanship in the industry. Galvanized steel framework shall be subject to a six stage pretreatment/wash (with zinc phosphate) followed by an electrostatic spray application of the PermaCoat® Color System, a two coat powder system. The base coat is a thermosetting epoxy powder coating (gray in color). The top coat is a “no-mar” TGIC polyester powder coat finish, which provides the protection necessary to withstand adverse environmental conditions.

The powder coated surface on all framework (i.e., pales, rails and posts) by AMERISTAR® is guaranteed under normal and proper usage, against cracking, peeling, chipping, blistering or corroding for a period of fifteen (15) years from the original purchase date. Normal and proper usage does not include physical damage, abrasion or exposure to salty environments to the protective coating.

Stalwart® Steel Security Barrier System framework is also guaranteed for the same period of time against defects in workmanship or materials.

Should any Stalwart® Security Barrier System framework manufactured by AMERISTAR® Fence Products fail in accordance with any of the above conditions, AMERISTAR® Fence Products warrants to the original purchaser their redemption through replacement, renewal or issuance of a pro-rated credit. The decision as to which method of redemption is allowed is solely at the discretion of AMERISTAR®. If pro-rated allowance is the chosen alternative, the amount will be based on the total number of years under warranty from date of purchase to date of claim, based on the original cost of framing materials found to be defective. Notice of failure under the conditions of this warranty shall be sent to AMERISTAR® Fence Products or its authorized representative, in writing, together with proof of purchase and shall specify the nature of the defect and when it was first observed. When cutting rails, immediately seal the exposed surfaces by 1) Removing all metal shavings from cut area 2) Apply zinc-rich primer to thoroughly cover cut edge and drilled hole; let dry 3) Apply 2 coats of custom finish spray paint matching barrier color. Failure to seal exposed surfaces per steps 1-3 above will negate warranty. If contractor uses non Ameristar parts/components this will negate the warranty. Should the barrier be improperly installed, AMERISTAR® Fence Products shall not be responsible for guaranteed performance or appearance of the material. Neither does this guarantee apply when failure or damage is due to improper use or application, abuse or misuse, salty environments, vandalism or acts of God. AMERISTAR® Fence Products reserves the right to inspect the material to determine validity of the claim.

Upon validation of the claim by AMERISTAR® Fence Products or its authorized representative, redemption by replacement, renewal or issuance of a pro-rated credit shall be made by AMERISTAR® Fence Products. Reimbursement for the costs of removal and installation of materials are not included in the guarantee, nor will AMERISTAR® Fence Products provide those services.

The above constitutes the complete warranty by the manufacturer. No other agreement, written or implied, is valid. AMERISTAR® Fence Products does not authorize any other person or agent to make any other express warranties. AMERISTAR® Fence Products neither assumes nor authorizes any other person or agent to assume any other liability in connection with the Stalwart® Steel Security Barrier System. Some jurisdictions do not allow limitations on how long an implied warranty lasts, nor do they allow an exclusion or limitation of incidental or consequential damages; therefore, the limitations and exclusions noted herein may not apply.
