

Echelon Plus[®]

ORNAMENTAL ALUMINUM FENCE

Echelon Plus has taken the *quality and performance* of aluminum ornamental fencing to a higher level. The strength characteristics of the *reinforced rail and posts*, coupled with a *superior powder coat finish* make Echelon Plus the *most durable .75" ornamental picket product on the market*.

PRIMARY APPLICATIONS

- ▶ ***Municipal Facilities***
- ▶ ***Childcare Facilities***
- ▶ ***Coastal Environments***
- ▶ ***Parks & Recreation***
- ▶ ***Schools***

FABRICATION & DESIGN

Ameristar crafted the ForeRunner rail to increase strength through architecture. The innovative design of the ForeRunner rail contains an internally secured rod that allows for variable pitch connection, high angle biasability and is easy to install. Internal security eliminates the need for visually unappealing external fasteners.

POWDERED COATED SUPERIOR FINISH

Echelon features a state of the art polyester powder coating system that provides a durable and scratch resistant finish. This eco-friendly process provides years of long-lasting durability and maintenance-free ownership.

LIFETIME LIMITED WARRANTY

The Echelon families of aluminum fencing products are manufactured from superior quality materials by skilled craftsmen with the highest standards of workmanship in the industry. Ameristar is confident in offering Echelon with a limited lifetime warranty, backed by over 30 years of demonstrated excellence in manufacturing of ornamental fence.

DOMESTIC MANUFACTURING

Ameristar is committed to providing products that are manufactured in the USA. We have made significant investments in technology, process improvement, and employee training in an effort to secure American jobs and combat inferior import products.

ECHELON PLUS® | CONSTRUCTION SPECIFICATION 32 31 19

ALUMINUM ORNAMENTAL FENCE SYSTEM – INTERNALLY SECURED

PART 1 - GENERAL

1.01 WORK INCLUDED

The contractor shall provide all labor, materials and all necessary items for the installation of the Echelon Plus® ornamental aluminum fence system defined herein at (specify project site).

1.02 RELATED WORK

Section ___ - Earthwork

Section ___ - Concrete

1.03 SYSTEM DESCRIPTION

The manufacturer shall supply a total ornamental aluminum fencing system of the Ameristar® Echelon Plus® (specify *Classic™, Majestic™, Genesis™, Warrior™, Conqueror™, Monarch Pool™, Majestic Pool™, Conqueror Pool™, Classic Puppy™, Majestic Puppy™, or Genesis Puppy™*) design. The system shall include all components (*i.e., pickets, posts, rails, gates and hardware*) required.

1.04 QUALITY ASSURANCE

The contractor shall provide laborers and supervisors who are thoroughly familiar with the type of construction involved and the materials specified.

1.05 REFERENCES

- **ASTM B117** – Practice for Operating Salt-Spray (Fog) Apparatus
- **ASTM B221** – Standard Specification for Aluminum and Aluminum-Alloy Extruded Bars, Rods, Wire, Profiles and Tubes
- **ASTM D523** – Test Method for Specular Gloss
- **ASTM D1654** – Test Method for Evaluation of Painted or Coated Specimens Subjected to Corrosive Environments
- **ASTM D2244** – Test Method for Calculation of Color Differences from Instrumentally Measured Color Coordinates
- **ASTM D2794** – Test Method for Resistance of Organic Coatings to the Effects of Rapid Deformation (Impact)
- **ASTM D3359** – Test Method for Measuring Adhesion by Tape Test
- **ASTM D6695** – Standard Practice for Xenon-Arc Exposures of Paint and Related Coatings

1.06 SUBMITTAL

The manufacturer's submittal package shall be submitted prior to installation to confirm compliance with all requirements for materials specified in this section.

1.07 PRODUCT HANDLING AND STORAGE

Upon receipt at the job site, all materials shall be checked to ensure that no damages occurred during shipping or handling. Materials shall be stored in such a manner to ensure proper ventilation and drainage and to protect against damage, weather, vandalism and theft.

PART 2 - MATERIALS

2.01 MANUFACTURER

The ornamental fence system shall conform to Ameristar's Echelon Plus aluminum ornamental fencing, (*specify Classic, Majestic, Genesis, Warrior, Conqueror, Monarch Pool, Majestic Pool, Conqueror Pool, Classic Puppy, Majestic Puppy, or Genesis Puppy*) (*specify 2-rail, 3-rail, 4-rail, 3-rail with rings, or 4-rail with rings*) style manufactured by Ameristar Fence Products, Inc. in Tulsa, Oklahoma.

2.02 MATERIAL

- A. Aluminum material for fence framework (*i.e., tubular pickets, rails and posts*) shall conform to the requirements of **ASTM B221**. The aluminum extrusions for posts and rails shall be Alloy and Temper Designation **6005-T52**. The aluminum extrusions for pickets shall be Alloy and Temper Designation **6063-T52**.
- B. Pickets shall be 3/4" square x .045" thick. Horizontal rails shall be 1-1/4" x 1-7/16" Forerunner™ channel with .060" thick top & internal web wall, and .090" thick side walls and shall be punched to allow picket to pass through the top of the rail. The Forerunner rail shall be constructed with an internal web providing a raceway for the pickets to be retained with a 1/8" retaining rod. The number of rails shall vary with the style, height and strength as determined by manufacturer. Fence posts and gate posts shall meet the minimum size requirements of **Table 1**.
- C. Accessories: Aluminum castings shall be used for all post caps, scrolls, finials, and other miscellaneous hardware. Hinges and latches shall be fabricated from aluminum, stainless steel or composite materials.

2.03 FABRICATION

- A. Pickets, rails and posts shall be pre-cut to specified lengths. ForeRunner rails shall be pre-punched to accept pickets. Grommets shall be inserted into the pre-punched holes in the rails and pickets shall be inserted through the grommets so that pre-drilled picket holes align with the internal upper raceway of the ForeRunner rails (*Note: This can best be accomplished by using an alignment template*). Retaining rods shall be inserted into each ForeRunner rail so that they pass through the pre-drilled holes in each picket, thus completing the panel assembly.

Effective: 01/01/18

AMERISTAR

ASSA ABLOY

TO PLACE YOUR ORDER CALL 888-333-3422 | VISIT AMERISTARFENCE.COM

ECHELON PLUS® | CONSTRUCTION SPECIFICATION 32 31 19

ALUMINUM ORNAMENTAL FENCE SYSTEM – INTERNALLY SECURED

- B.** The manufactured framework shall be subjected to the Ameristar thermal stratification coating process (*high-temperature, in-line, multi-stage, and multi-layer*) including, as a minimum, a six-stage pretreatment/wash and an electrostatic spray application of a polyester finish. The topcoat shall be a “no-mar” TGIC polyester powder coat finish with a minimum thickness of 2 mils (0.0508mm). The color shall be (specify Black, Bronze, or White). The stratification-coated framework shall be capable of meeting the performance requirements for each quality characteristic shown in **Table 2**.
- C.** Finish: All fence components shall be subject to a six-stage pretreatment/wash followed by an electrostatic spray application of a “no-mar” TGIC polyester powder coat finish with a minimum thickness of 2-4 mils. The color shall be (*specify black, bronze or white*).
- D.** Completed panels shall be capable of supporting a 200 lb. load (*applied at midspan*) without permanent deformation. Panels without rings shall be biasable to a 12.5% change in grade.
- E.** Swing gates shall be fabricated using 1-1/4" x 1-7/16" Forerunner rail, 1.75" sq. x .125" gate ends, and 3/4" sq. x .080 pickets. Gates that exceed 6' in width will have a 1.75" sq. x .125" intermediate upright. All rail and upright intersections shall be joined by welding. All picket and rail intersections shall also be joined by welding.

PART 3 - EXECUTION

3.01 PREPARATION

All new installation shall be laid out by the contractor in accordance with the construction plans.

3.02 FENCE INSTALLATION

Fence post shall be spaced according to **Table 3**, plus or minus 1/2". For installations that must be raked to follow sloping grades, the post spacing dimension must be measured along the grade. Fence panels shall be attached to posts with brackets supplied by the manufacturer. Posts shall be set in concrete footers 33" depth recommended (*Note: In some cases, local restrictions of freezing weather conditions may require a greater depth*). The “Earthwork” and “Concrete” sections of this specification shall govern material requirements for the concrete footer. Posts setting by other methods such as plated posts or grouted core-drilled footers are permissible only if shown by engineering analysis to be sufficient in strength for the intended application.

3.03 FENCE INSTALLATION MAINTENANCE

When cutting/drilling rails or posts adhere to the following steps to seal the exposed surfaces; 1) Remove all metal shavings from cut area. 2) Apply custom finish paint matching fence color. Failure to seal exposed surfaces per steps 1 & 2 above will negate warranty. Ameristar spray cans or paint pens shall be used to finish exposed surfaces; it is recommended that paint pens be used to prevent overspray. Use of non-Ameristar parts or components will negate the manufactures’ warranty.

3.04 GATE INSTALLATION

Gate posts shall be spaced according to the manufacturers’ gate drawings, dependent on standard out-to-out gate leaf dimensions and gate hardware selected. Type and quantity of gate hinges shall be based on the application; weight, height, and number of gate cycles. The manufacturers’ gate drawings shall identify the necessary gate hardware required for the application. Gate hardware shall be provided by the manufacture of the gate and shall be installed per manufacturer’s recommendations.

3.05 CLEANING

The contractor shall clean the jobsite of excess materials; post-hole excavations shall be scattered uniformly away from posts.

SEE REFERENCED TABLES ON THE FOLLOWING PAGE

Effective: 01/01/18

ECHELON PLUS® | CONSTRUCTION SPECIFICATION 32 31 19

ALUMINUM ORNAMENTAL FENCE SYSTEM – INTERNALLY SECURED

TABLE 1

MINIMUM SIZES FOR ECHELON PLUS POSTS			
FENCE POSTS		PANEL HEIGHTS	
2½" x 2½" x .060" w/reinforced web		up to and including 6' height	
GATE LEAF	GATE HEIGHT		
	up to & including 4'	over 4' up to & including 5'	over 5' up to & including 6'
up to 4'	2½" x 2½" x .060 alum.	3" x 3" x .120" alum.	4" x 4" x .250" alum. or 3" x 3" 12 ga. steel
4'1" to 6'	3" x 3" x .120" alum.	4" x 4" x .250" alum. or 3" x 3" 12 ga. steel	3" x 3" 12 ga. steel
6'1" to 8'	4" x 4" x .250" alum. or 3" x 3" 12 ga. steel	4" x 4" x 11 ga. steel	4" x 4" x 11 ga. steel

TABLE 2

COATING PERFORMANCE REQUIREMENTS		
QUALITY CHARACTERISTICS	ASTM TEST METHOD	PERFORMANCE REQUIREMENTS
ADHESION	D3359 – METHOD B	Adhesion (<i>retention of coating</i>) over 90% of test area (<i>tape and knife kit test</i>).
CORROSION RESISTANCE	B117, D714, D1654	Corrosion resistance over 1,500 hours (<i>scribed per D1654; failure mode is accumulation of 1/8" coating loss from scribe or medium #8 blisters</i>)
IMPACT RESISTANCE	D2794	Impact resistance over 60" lb. (<i>forward impact using 0.625" ball</i>).
WEATHERING RESISTANCE	D822 D2244, D523 (60° method)	Weathering resistance over 1,000 hours (<i>failure mode is 60% loss of gloss or color variance of more than 3 delta-E color units</i>).

TABLE 3

ECHELON PLUS POST SPACING BY BRACKET TYPE					
SPAN	8' nominal (91.75" rail)				
POST SIZE	2½"	2½"	3"	2½"	3"
BRACKET TYPE	Echelon Plus Line Blvd. (ABB3)	Echelon Plus Swivel* (ABB2)		Echelon Plus Flat Mount (ABB1)	
POST SETTINGS ± ¼" O.C.	95"	*95"	*95½"	95"	95½"

TABLE 3

SPAN	6' nominal (73.0625" rail)				
POST SIZE	2½"	2½"	3"	2½"	3"
BRACKET TYPE	Echelon Plus Line Blvd. (ABB3)	Echelon Plus Swivel* (ABB2)		Echelon Plus Flat Mount (ABB1)	
POST SETTINGS ± ¼" O.C.	76¼"	*76¼"	*76¼"	76¼"	76¼"

*When using ABB2 swivel brackets on either or both ends of a panel installation, care must be taken to ensure the spacing between post and adjoining pickets meets applicable codes. This will require trimming one or both ends of the panel.

ECHELON PLUS® | LIMITED LIFETIME WARRANTY

COMMERCIAL ALUMINUM ORNAMENTAL FENCE

Echelon Plus® Commercial Aluminum Ornamental Fence System by Ameristar® is manufactured from the highest quality materials by skilled craftsmen to meet the highest standards of workmanship in the industry. Extruded aluminum framework shall be subject to a six stage pretreatment/wash followed by an electrostatic spray application of “no-mar” TGIC polyester powder coat finish, which provides the protection necessary to withstand adverse environmental conditions.

The powder coated surface on all aluminum framework (*i.e., pickets, rails and posts*) by Ameristar is guaranteed under normal and proper usage, against cracking, peeling, chipping, blistering or corroding for a lifetime limited period. Normal and proper usage does not include physical damage, abrasion or exposure to salty environments to the protective coating.

Echelon Plus Commercial Aluminum Ornamental Fence System framework is also guaranteed for the same period of time against defects in workmanship or materials.

Should any ornamental fence framework manufactured by Ameristar Fence Products fail in accordance with any of the above conditions, Ameristar Fence Products warrants to the original purchaser their redemption through replacement or renewal. The decision as to which method of redemption is allowed is solely at the discretion of Ameristar. Notice of failure under the conditions of this warranty shall be sent to Ameristar Fence Products or its authorized representative, in writing, together with proof of purchase and shall specify the nature of the defect and when it was first observed. Should the fence be improperly installed, Ameristar Fence Products shall not be responsible for guaranteed performance or appearance of the material. Neither does this guarantee apply when failure or damage is due to improper use or application, abuse or misuse, vandalism or acts of God. Ameristar Fence Products reserves the right to inspect the material to determine validity of the claim.

Upon validation of the claim by Ameristar Fence Products or its authorized representative, redemption by replacement or renewal shall be made by Ameristar Fence Products. Reimbursement for the costs of removal and installation of materials are not included in the guarantee, nor will Ameristar Fence Products provide those services.

The above constitutes the complete warranty by the manufacturer. No other agreement, written or implied, is valid. Ameristar Fence Products does not authorize any other person or agent to make any other express warranties. Ameristar Fence Products neither assumes nor authorizes any other person or agent to assume any other liability in connection with Echelon Plus Commercial Aluminum Ornamental Fence System. Some jurisdictions do not allow limitations on how long an implied warranty lasts, nor do they allow an exclusion or limitation of incidental or consequential damages; therefore, the limitations and exclusions noted herein may not apply.
