

JUST ASK FOR THE

MAXIMA[®] TRADITIONAL

Patent No. 4,871,203
No. 4,690,440

QUICK & EASY TO INSTALL

- **PRE-ASSEMBLED** – You do not have to put it together
- **EASIEST INSTALLATION** – Two piece latch assembly mounts quickly with two fasteners
- **NO SPRINGS** – Simplifies installation/operation... eliminates lost or missing spring problems
- **ONE-STEP REVERSIBILITY** – Just flip it over... no disassembly or reassembly required
- **SUPPORTED STRIKER BAR** – Handle adds stability to gate mounted striker

AVOID TYPICAL INSTALLATION PROBLEMS

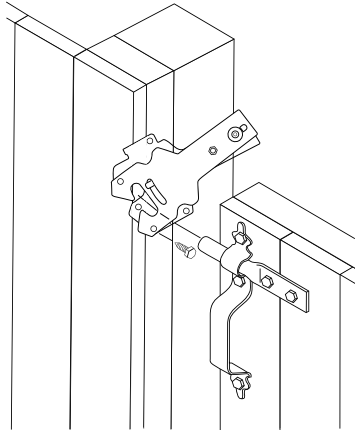

- **ANTI-SAG DESIGN** – Forces gate striker to catch
- **POSITIVE GATE SUPPORT** – Provides complete upward support on latch side
- **NO SMALL REPLACEMENT PARTS NEEDED** – Eliminates need for replacing springs or assembly screws
- **EXTRA HEAVY DUTY** – 11 gauge steel mainframe and keeper; 3/4" diameter striker

END USER SATISFACTION

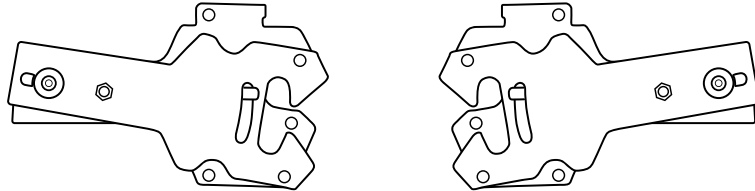

- **PADLOCKS ON EITHER SIDE** – For any gate/post framing thickness
- **"SLIP-LOCK"** – Solid brass button enables manual locking back side
- **SAFETY CONTOUR** – No protruding points to cause accidental injury
- **HIGH SECURITY** – Positive capture feature of keeper and catch makes release of striker impossible when latch is locked
- **POWDER-COATED FINISH** – Withstands the elements

Effective: 01/01/18

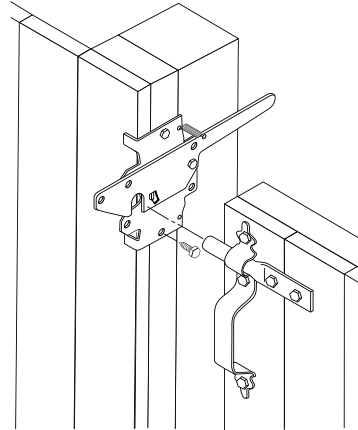

MAXIMA® TRADITIONAL STYLE | GATE LATCHES

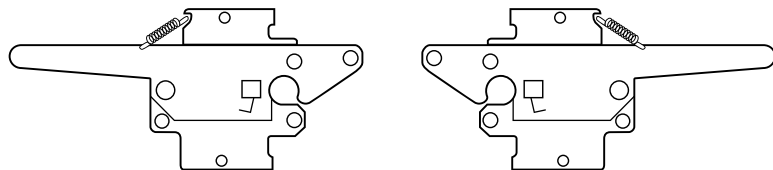

DESCRIPTION	ITEM NUMBER	FINISH	HANDLE	BOX QTY	BOX WEIGHT	STOCKING
Maxima® Deluxe Latch Set with Slip-Lock	296-SX-R	BLACK	✓	20	49 lbs	✓

The "Max" deluxe latch set includes striker, handle, slip-lock & screws | Reversible without disassembly

WOOD GATE HARDWARE | ACCESSORIES

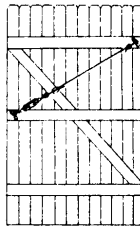

DESCRIPTION	ITEM NUMBER	FINISH	PACKAGING	BOX QTY	BOX WEIGHT	STOCKING
14" Gate Spring	331X	BLACK	☉	30 ea	39 lbs	✓

Notes: Fully adjustable for gate or door installations | Gate spring must be installed in an oblique position (as shown), with the adjustable capstan to the top & to the left when facing the gate face | Gate spring must be installed on the same side as the gate hinges | Increase tension in the spring by using a wrench pin at the top capstan, then turn counter-clockwise | Insert stop pin into capstan once desired tension has been achieved

DESCRIPTION	ITEM NUMBER	FINISH	PACKAGING	BOX QTY	BOX WEIGHT	STOCKING
Gate Sag Prevention Kit	337X	ZINC	☉	30 ea	20 lbs	✓

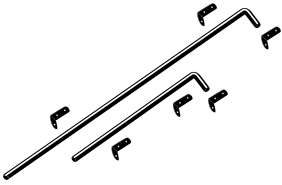

Notes: Prevents sagging on NEW gates | Able to raise an EXISTING gate | Fits panels up to 6' high & 5' wide | Kit includes cable, brackets, tightener & screws | Future adjustments can be made by tightening the turnbuckle | Position from mid height on latch side to the top back rail on the hinge side | AVOID mounting from the bottom of the latch side as it may cause the gate to "bow"
